Zoning Considerations and Timeline

The principles that guide the zoning decisions each year are:

- ▣ effective space utilization;
- ▣ stability of students;
- ▣ proximity to campus;
- ▣ maintaining diversity; and
- ▣ unity of the community.

The zoning timeline is normally as follows:

- ▣ *October, updated projections received and the public is reminded of the new schools planned and zoning timelines.*
- ▣ *November, a draft option is presented to the board and shared with the community. Input is taken.*
- ▣ *December, public hearing and discussion*
- ▣ *January, final decision is made and communicated.*
